**Subject:** Hunters Point Naval Shipyard Meeting with San Francisco Mayor Lee

Hi Mohsen, I wanted to give you a quick summary regarding the meeting with San Francisco Mayor Lee, the Navy, US EPA, DTSC, the Water Board, City Agencies and Five Points (master developer for Hunters Point Naval Shipyard).

- 1) <!--[if !supportLists]--><!--[endif]-->Next Mayor's meeting will be scheduled toward the end of June/early part of July prior to the release of the Initial Findings Report.
- 2) <!--[if !supportLists]--><!--[endif]-->Discussed everyone's impressions about the 2/8 open house and media coverage.
  - a. <!--[if !supportLists]--><!--[endif]-->The Mayor asked for a summary of the issues raised.
    - i. <!--[if !supportLists]--><!--[endif]-->People generally came with questions and had their questions answered.
    - ii. <!--[if !supportLists]--><!--[endif]-->Legal action being taken against whistleblowers.
    - iii. <!--[if !supportLists]--><!--[endif]-->Cleanup standards – what they are and are they protective.
  - b. <!--[if !supportLists]--><!--[endif]-->Discussed some improvements we could make to the meeting format.
- 3) <!--[if !supportLists]--><!--[endif]-->Discussed Navy's plans to meet in smaller groups with the Parcel A Homeowner's Association and some churches. Navy indicated that if more meetings are needed, they will schedule more meetings.
- 4) <!--[if !supportLists]--><!--[endif]-->Bus Tour date set in April. The Navy will have two buses that can accommodate around 45 people each. Sign-ups were taken at the open house and the tours are currently full.
- 5) <!--[if !supportLists]--><!--[endif]-->Navy went over the phases of the radiological soil data reevaluation (Identify, Analyze, Sample).

- a. <!--[if !supportLists]--><!--[endif]-->They are close to being done with the identify phase.
  - b. <!--[if !supportLists]--><!--[endif]-->They have scratched the surface of the analyze phase.
  - c. <!--[if !supportLists]--><!--[endif]-->It will be mid-May before they have something to report on with respect to their analysis of the existing soil data.
  - d. <!--[if !supportLists]--><!--[endif]-->Initial Findings Report projected for submittal in July 2017 would cover both soil and building rescanning.
  - e. <!--[if !supportLists]--><!--[endif]-->EPA will be the focus of the next phase. Community members want to hear from regulatory agencies whether the site is safe. Supervisor Cohen's aide recommended having a plan to share the results of the analysis phase.
- 6) <!--[if !supportLists]--><!--[endif]-->Schedule concerns.
- a. <!--[if !supportLists]--><!--[endif]-->Community benefits are tied to development dates.
  - b. <!--[if !supportLists]--><!--[endif]-->Investors like certainty.
  - c. <!--[if !supportLists]--><!--[endif]-->Want to ensure that only safe properties are transferred.
  - d. <!--[if !supportLists]--><!--[endif]-->Parcel C does not have a projected transfer date. Navy and Five Points to discuss potential access to parcels prior to transfer for development work while groundwater is still being addressed.
